Established in 2007, the Pap Rally and Run is an event that brings people together on behalf of cervical cancer awareness.

From support to celebrating milestones, our Comfort Care and Compassion Program provides those with a current or prior diagnosis of cervical cancer with that little extra something to help carry them through the day.

Often times, cervical cancer survivors feel voiceless. This podcast is a platform to lend support. To share our stories. To spread awareness and to create the change that we want to see.
