Join us on National Patient Advocacy Day as we raise our voices and shine a light on cervical cancer awareness. You'll connect with other cancer patients, and survivors, hear their stories, and be able to share your own! You'll also learn about useful resources available to you. Together, we can create a brighter future for ending cervical cancer. Don't miss this empowering event!

**Refreshments and snacks provided. *** IMPORTANT: You will need an Identification Card (ID) for security check-in.
